## THE KITE SPOT: PARACAS BAY

Paracas bay is a prime world destination to learn and progress in kite surf due to its perfect conditions: **constant wind** every day after midday, **flat water, shallow area** for 100mts, **sandy bottom** and **NO CROWDS!** The wind is side off-shore in a U shaped bay. The wind range is normally between **18 to 25 knots**. Water is around 18° so a wetsuit is recommended. It's always sunny and never rains, nice and warm during the day (since its desert weather at night the temperature drops a bit)
